ISHIKA SINGH

B.Tech Computer Science | Software · Product · Growth

+91 9831813831 · cswithishika07@gmail.com · Kolkata, India
linkedin.com/in/ishika07 · github.com/violetbyte

B.Tech Computer Science student at Techno India University, building across software, growth, and AI. Built and deployed web tools, including an AI crawler access checker, and led a team at NASA Space Apps Challenge 2025. Technical Intern at Heva AI, an AI-native applied research lab, working on SEO, GTM, and content. Currently exploring SaaS and cybersecurity.

EXPERIENCE

Technical Intern · Heva AI Technologies Private Limited — Oct 2026 – Present
AI-native applied research lab — Kolkata · Hybrid

- Own organic growth: SEO, GTM and distribution, and content creation.
- Track organic search performance using Google Search Console and GA4.

Content Writer (Curriculum) · Educatly *(Make Everything Easy)* — Mar 2026 – Present

- Write academic curriculum content for science subjects.

Project Intern · Scrimba · Remote — Mar 2026 – Aug 2026

- Completed structured, hands-on project training in database management.

Open Source Contributor · ISTE HIT SC — issues, commits and pull requests on GitHub — Jan 2026 – Apr 2026

Campus Ambassador · Smarted Innovations — on-campus outreach and engagement — Dec 2025 – Feb 2026

PROJECTS

Global Fusion Engine NASA Space Apps Challenge 2025 · Team Lead
Led a team building a satellite-risk aggregation system; designed the database and contributed to the API.

GeoLens NASA Space Apps Challenge 2026 (ongoing) · Frontend and API integration
`HTML · CSS · JavaScript · React · APIs`
Unified monitoring platform for floods, droughts and vegetation, with regional observations and location-specific analysis.

AI Access Crawler Checker — Live · GitHub
`HTML · CSS · JavaScript · API · Vercel`
Checks how a site's robots.txt treats major AI crawlers, shows access per crawler, and generates a one-click fix.

Museum of Faded Things — Live · GitHub
`Three.js · JavaScript · HTML/CSS · Vercel`
Interactive 3D museum of nine everyday Indian objects (1950–2010): rotate each, tap parts to learn how it worked, hear it in action, and slide through the decades.

AI in 26 Topics — Live · GitHub
`HTML · CSS · JavaScript · SVG · localStorage · Vercel`
Plain-language AI explainer: 26 topics on an interactive mountain trail, nine hands-on demos, light/dark mode, saved progress.

Also built: Poster Composer (live, GitHub) · My Enchanted Tide Pool (live, GitHub)

SKILLS

Languages	C, Python, JavaScript
Frontend	HTML, CSS, React, Three.js
Data & APIs	MySQL, REST APIs
Growth	SEO, GTM and distribution, content writing, Google Search Console, GA4
Tools	Git, GitHub, Vercel
Fundamentals	Data structures and algorithms, OOP

EDUCATION

Techno India University, West Bengal — B.Tech, Computer Science & Engineering (Core) — 2025 – 2029
Indus Valley World School — 2023 – 2025
South Point High School — 2010 – 2023

CERTIFICATIONS

Python Essentials 1 — Cisco Networking Academy
Responsible AI: Applying AI Principles with Google Cloud — Google Cloud (via Coursera)
