SUMMARY

Second-year B.Tech Computer Science student with hands-on experience in product development, open-source contribution, and team-based projects. Skilled in C, Python, JavaScript, HTML/CSS, MySQL, and Git/GitHub, with a current focus on React and frontend development. Interested in building practical software and learning through real-world projects.

SKILLS

- PROGRAMMING:** C, PYTHON, JAVASCRIPT
- FRONTEND:** HTML, CSS, REACT (LEARNING)
- DATABASE:** MYSQL
- TOOLS:** GIT, GITHUB, VS CODE
- CONCEPTS:** DATA STRUCTURES & ALGORITHMS, OOP, API DEVELOPMENT

WORKING EXPERIENCE

- PROJECT INTERN — SCRIMBA**
Feb 2026–Present · Remote
Product Development
 - Built a strong foundation in database management through structured hands-on learning.
 - Developed foundational understanding of database concepts and their application in software projects.
- OPEN SOURCE CONTRIBUTOR — INDIAN SOCIETY FOR TECHNICAL EDUCATION (HIT SC)**
Jan 2026–Apr 2026 · Remote
 - Contributed to collaborative open-source development using Git and GitHub.
 - Worked with issues, commits, pull requests, and project documentation.
- CAMPUS AMBASSADOR — SMARTED INNOVATIONS**
Dec 2025–Feb 2026 · Remote
 - Represented the organization on campus and supported student outreach and engagement.
 - Assisted with promotion of technical programs and initiatives.

EDUCATION

- SOUTH POINT HIGH SCHOOL**
2010-2023
- INDUS VALLEY WORLD SCHOOL**
2023-2025
- TECHNO INDIA UNIVERSITY, WEST BENGAL**
B.Tech — Computer Science & Engineering (Core) | 2025–2029

RELEVANT PROJECTS

Global Fusion Engine — NASA Space Apps Challenge 2025

Team Lead · Database & API Development

- Led the team in developing a satellite-risk aggregation system.
- Designed the database management system and contributed to API development.
- Worked on team coordination and overall project architecture.

Disaster Risk Detection Platform — Ongoing Team Project

Frontend Developer

- Developing the frontend for a laptop-first web application.
- Working with JavaScript and currently learning React.
- Exploring interfaces for a platform using weather and geological/satellite data.

PredictifyME — Stress & Productivity Platform

Founder / Team Lead · Frontend Development

- Developed the original product idea and led the team.
- Contributed to frontend development and product direction.
- Designed the concept around analyzing stress and productivity patterns.
